1. GRIP REMOVAL

1.1. Deploy the G2 Kickstand to ensure the Gocycle remains upright. Alternatively lean the Gocycle against a sturdy fixture.

1.2. Remove the end cap from the end of the handlebar, as shown.

1.3. Pull the old handlebar grip off as demonstrated.

The grip has been removed.

2. GRIP INSTALLATION

2.1. Ensure the handlabr is clean from any dirt or residue and is dry.

2.2. Carefully spray hairspray into the new grip as demonstrated.

Note: The hairspray acts both intially as a lubricant, allowing easy assembly, and as an adhesive once dry.

2.3. Slide the new grip onto the handlebar.

Ensure that the grip is properly orientated to correctly interface with the shift or power button moulding.

2.4. Finally, reinstall the end cap as demonstrated.

If required, repeat all steps for the left handlebar grip assembly.

Do not ride the Gocycle for at least one hour after completing this operation to allow time for the hairspray to dry.

IMPORTANT NOTE: THE ABOVE ASSEMBLY STEPS MUST BE CARRIED OUT IN ORDER. FAILING TO DO SO MAY RESULT IN DAMAGE TO THE GOCYCLE.
