OVERVIEW

This document details assembly of the Gocycle G3 Integrated Light Kit.

PARTS LIST

To successfully complete the procedure you will require the following parts. Note: You may be able to reuse parts on your Gocycle and as such only need to order parts specific to your repair:

<table>
<thead>
<tr>
<th>Part Code</th>
<th>Part Description</th>
<th>Quantity</th>
</tr>
</thead>
<tbody>
<tr>
<td>4032</td>
<td>Reflector Kit</td>
<td>1</td>
</tr>
<tr>
<td>4161</td>
<td>Front Light</td>
<td>1</td>
</tr>
<tr>
<td>4128</td>
<td>Rear Light</td>
<td>1</td>
</tr>
<tr>
<td>4129</td>
<td>Rear Light Bracket</td>
<td>1</td>
</tr>
<tr>
<td>4188</td>
<td>Front Light Bracket</td>
<td>1</td>
</tr>
</tbody>
</table>

TOOL LIST

To successfully complete this procedure, you will require the following tools. You can purchase special KKL tools by their tool number detailed below.

<table>
<thead>
<tr>
<th>Part Code</th>
<th>Tool Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>3mm Allen key</td>
<td></td>
</tr>
<tr>
<td>T-20 Torx (x2)</td>
<td></td>
</tr>
<tr>
<td>8mm spanner</td>
<td></td>
</tr>
<tr>
<td>Scissors</td>
<td></td>
</tr>
</tbody>
</table>

If you have any questions, or require any further assistance, please contact techsupport@gocycle.com
1. **INSTALLING THE G3 FRONT LIGHT**

1.1. The front light bracket attaches to the fork, under the fork boot.

1.2. Use a 3mm Allen key to unscrew the 2 bolts holding on the cap.
1.3. Remove the cap.

1.4. Pull out the front light cable.

1.5. Use scissors to cut out the slot in the fork boot.
1.6. The front light cable fits in the slot in the front light bracket.

1.7. Use a 3mm Allen key to tighten the two screws which attached the front light bracket.
1.8. Mount the front light as shown.

1.9. Use two T25 Torx tools to tighten the fixing screws.

1.10. Plug in the front light.
1.11. The light cable tucks in the top of the front light bracket as shown.

1.12. Tuck the connector plug under the fork boot. It sits on a small shelf on the front light bracket.
1.13. Correct installation of the front light.

2. **INSTALLING THE G3 REAR LIGHT**

2.1. Remove the M5 nut and spring washer from the rear light.

2.2. Align the rear light and the rear light bracket as demonstrated.
2.3. Install the spring washer and M5 nut and tighten using an 8mm spanner.

2.4. Locate the end of the lighting harness with two connectors.

2.5. Remove the frame trim of the Gocycle.
2.6. Thread the two connectors through the frame trim.

2.7. Reinstall the frame trim with the two connectors as demonstrated.

2.8. The cable with a Red stripe is positive (+) and needs to be plugged into positive terminal on the rear light as shown.

Note: The positive terminal will be denoted by a ‘plus, +’ sign or a ‘lightning bolt’.
2.9. The plain black cable is negative and has to be plugged in to the opposite terminal of the rear light.

Note: The negative terminal will be denoted by a ‘minus, -’ sign or an ‘earth’ sign.

2.10. Push the Lockshock to its normal position.

2.11. Locate as shown, pressing firmly on the Rear Light Bracket to secure in place with a “click”.
2.12. The rear light is now fitted.

3. **INSTALLING THE REAR REFLECTOR**

3.1. Stand Gocycle upright and ensure your saddle height is correctly adjusted. Locate the rear reflector bracket as shown.
3.2. Attach the bracket using a 2.5mm Allen key. (There is an Allen key supplied with the kit.)

3.3. Attach the reflector as demonstrated. Note the correct orientation.

3.4. Use the 2.5mm Allen key to tighten the reflector securing clamp.
ITAL NOTE: THE ABOVE ASSEMBLY STEPS MUST BE CARRIED OUT IN ORDER. FAILING TO DO SO MAY RESULT IN DAMAGE TO THE GOCYCLE.
